USIB WORKING GROUP FOR DIRECTION-FINDING OF
FOREIGN BROADCAST** TRANSMITTERS

I. MISSION

Reference: a. USIB-M-50, dated 28 July 1959

b. USIB-D-50.1/2, dated 9 June 1959

As directed in reference a, the Working Group was constituted of qualified technical and intelligence planning personnel (1) to study the problem of obtaining for the intelligence community reliable means for fixing the location of foreign radio propaganda broadcasts, particularly those of clandestine nature, such study to include inventory of existing Federal DF facilities and capabilities; and (2) to recommend a course of action which includes optimum recognition of the potential of applicable Federal DF facilities.**

-
- * The term "foreign broadcast" when used in this report should be interpreted to mean "foreign radio and television propaganda and press broadcasts" as set forth in paragraph 8 of NSCID No. 2.
- ** The abbreviation DF is used in this report for the repetitious term "direction-finding".
